Peculiar Reports from Manila Concerning Situation--Americans

Admiral Dewey Managing Affairs with Great Diplomacy and Skill-Blockade More Rigidly Maintained-Austrian Captain Slighted American Flag.

Copyrighted by Associated Press, Man. ila, July 9, via Hongkong, July 13-The insurgents on Wednesday, July 6, reported that the German boat Irene, in Subic bay, refused to permit them to attack the Spaniards on Grande Island. Rear Admiral Dewey promptly dispatched the Raleigh and Concord to investigate. On entering Subic bay the patented the Kaleigh and Concord to investigate. On entering Subic bay the Raleigh opened fire on the forts, whereupon the Irene slipped her cable and steamed out of the other channel. The result of the fire by the American war-ship was that the Spaniards, numbering over 500, surrendered everything. On returning to Manila, the Irene explained that she interferred "in the cause of humanity" and offered to hand over to the Americans the refugees she had on board. Admiral Dewey, however, de-

clined to accept them.
Governor General Augusti has issued a proclamation promising to grant autonomy to the islands and offering the insurgents inducements to join the Spanish forces. General Aguinaldo, the insurgent leader in reply said that the insurgent leader, in reply said that the overtures came too late.

Manila, July 7, via Hongkong, July 13.—The insurgents on yesterday made a vigorous attack on the Spaniards from all sides, with but little result. They shelled the Spanish block houses and trenches north of Manila. capturing the Spanish guns at Mesa. There was a furious musketry fire all night long at furious musketry fire all night long at San Juan, Santa Ana, Pasco and Pasayi, the Spaniards replying with artillery and musketry. The insurgents' artillery is not yet operating. About 400 native infantry have joined the insurgents. The insurgents rushed the Malate entrenchments, pushing forward to the walls of the fort, but had to retire at daylight. It is probable the loss was 100 men on each side. The Americans and insurgents are acting Americans and insurgents are acting independently, both conducting their own operations, hoping to evolve an agreement afterwards. The Americans are postponing their operations until prepared for any contingency.

Does Not Expect Trouble From Germans New York. July 13.—A special copyright cable from Manila, datēd July 10, to the New York Journal, says that Admiral Dewey's taking possession of Subic bay defeats Germany's supposed plans to interfere in the Philipines. Reported Interference Not Mentioned. Washington, July 13 .- The Navy de-Washington, July 13.—The Navy department has received a cablegram from Admiral Dewey. It is stated it relates solely to the question of supplies for the American Asiatic squadron. No reference whatever is made to the reported interference by a German gunboat between the insurgents and Spaniards at Grande Island. Late Dispatch From Dewey.

The Navy department has received from Admiral Dewey the following dispatch: "General Aguinaldo informs me that his troops have taken all the Subic bay ports except Isla Grande, which he was prevented from taking by the German man-of-war Irene. On July 7, the Raleigh and Concord went there, and took the Island and about 300 men with their arms and ammunition. No retheir arms and ammunition. No re-sistance was offered. Attention of Naval and Land Forces Will Be Turned to Spain and Puerto Rico.

New York, July 13 .- A special to the Tribune from Washington, says: The actual departure of Commodore Watson's raiding squadron for the coast of Spain, which the naval authorities expect will occur about the end of the present week, indicate sufficiently the complete abandonment of any intention to besiege Havana in the next three or four months, and confirms the impression that no extended military operations will be prosecuted in Cuba after the capitulation of Santiago. Promptly upon the fall of Santiago it is announced that au expedition to Puerto Rico is to be undertaken, with General Miles in command of three divisions of troops aggregating more than 30,000 men. His forces will include practically all the regular and volunteer troops now at Santiago, the Cubans and inmunes being left to hold that province.

Blockade Runner Captured.

Washington, July 13.-Captain Sawyer, signal officer at Key West, reported to the war department that the ship San Domingo was wrecked off the Isle of Pines, Cuba, while trying to run the blockade. UNEASINESS AT THE WHITE HOUSE.

Suspicious Cases of Fever Among Employe of Quartermaster's Department Causes

Apprehension—Sick Men Isolated. Washington, July 13.—A special meeting of the cabinet has been called. A war conference, with Secretaries Day Alger and Long and Admiral Sicard and Captain Mahan participating, has been in continous session all the forenoon and important dispatches are being considered. Rumors of disquieting news feeling of depression seems to pervade the White house. It was definitely learned that there are 14 suspicious cases of fever among the employes of the quartermaster's department near Santiago. Pending the determination of the exact character of the fever these men have been isolated in a valey near Siboney and placed under the care of immune doctors and nurses.

It was nearly 2 o'clock when the war conference at the White house broke up. Members of the cabinet, when questioned said the meeting was called to discuss the general situation at Santiago. General Shafter and his advisers have come to the conclusion that the enemy has no idea of coming to our terms, and the repeated hoisting of a flag of truce is done with the silegn purpose of delaying a decisive engagement. It is believed that at today's conference it was decided that orders should be sent to General Miles and General Shafter to make a general assault upon the enemy's work so soon as the weather permits. It is understood that this assault must necessarily cost many lives, but it seems equally certain that to keep the men much longer in the trenches under present weather conditions would be almost as disastrous to our forces as a climatic conditions, the fall of Santiago and the surrender of the Spanish army there will be the close of the campaign in Cuba until the rainy season shall have passed. The presumption is that with the fall of Santiago the army will be re-embarked on the transports and sent to the United States where the troops will remain until October or even later. before making a general movement on Puerto Rico or Havana. Meanwhile our fleets would maintain a strong blockade off all Cuban ports and thus render further occupation much easier

Severe Conditions for Troops, Dispatches were received today from General Miles, General Shafter and Admiral Sampson, which caused some anxiety and much activity in official quarters. Although no word of any of the dispatches have been given out, those in position to speak intelligently of them, said the anxiety was not due to a material change in the military situation, but rather to the severe conditions surrounding our soldiers as the re-sult of the terrific storms the last few

General Toral Has Refused Terms of Unconditional Surrender--American Lines Strengthened.

WOUNDED WELL CARED FOR

from General Miles are current, and a Terrible Privations Suffered by Santiago Refugees-Food Given Them by General Shafter-Officers Recommended for Promotion for Bravery.

Off Juragua, July 12, via Kingston, Jamaica, July 13.—All negotiations for the peaceful surrender of Santiago have ended in utter failure, and the city must fall by the sword. General Toral, the Spanish commandant, has finally and definitely refused to accept General Shafter's proposal for an unconditional surrender, and the American army only awaits the word of its general to begin the final struggle. Just when the attack will be made depends upon the time which will ensue before General Randolph can land his batteries at the front, as it is definitely settled that the forward movement will not begin until the army is fully backed up by his guns, the absence of which cost so many lives during the previous engagements. Gen-eral Randolph's movement began early this morning and tonight, out of ten batteries, but one of the four guns succeeded in making the way over the al-most impassable trail to the trenches at the front. This, with the four batteries general engagement. It is also believed already there, is not considered by the that without material improvement in American commander to be sufficient. American commander to be sufficient, Probably 24 hours more will clapse be-Probably 24 hours more will begins, fore the general engagement begins. General Shafter's second and last prosent into Santiago at noon yesterday. It went in the form of a terse note in which the general pointed out the hope-lessness of the Spanish position, sur-rounded by American troops and cut off from re-enforcements.

The firing which has been going on at intervals since Sunday afternoon, was ordered stopped when the flag of truce started for the Spanish side and has not been resumed. No attention was paid o General Shafter's communication until shortly after 8 o'clock this morning, when a reply came under a flag of truce. General Toral was as brief as his foe, saying in effect that if the Americans wanted Santiago they would have to come and get it. He declared the demand for an unconditional surrender of the city was beyond reason and possibil-ity, and if pressed was ready to meet an attack at any time the invading army saw fit to make one.

General Randolph's ten light batteries were ordered rushed from the landing place at Juragua, and a change in our lines was made. General Lawton's en-tire division was moved to the northward a mile and a half, his extreme right being placed at Calmenes, on the border of the harbor. This movement places the American forces in semilards except by water, as our flanks rest city

at the waters' edge.

The late arrivals of volunteers were moved up from Juragua, and the 1st Illinois, 8th Ohio and 1st District of Illinois, 8th Ohio and 1st District of Columbia were located in the trenches vacated by General Laurten and Columbia were located in the trenches vacated by General Lawton's men. Captain Grimes' battery was swung occupies a bluff from which it can fire directly into the heart of the city. This is a most important move, as it enables the American forces to shell the city without injuring the hospitals and pubings thus protected from assault. The little town of Calmenes was evacuated by the Spanish troops yesterday, and is now occupied by Cuban troops with a few companies of regulars.
